

After the Abstract, replace Sequence Listing pages 1-3, filed August 21, 2000, with Sequence Listing pages 1-13 submitted herewith. OK

IN THE CLAIMS

Replace pending claims 4, ~~6, 7, 9-12~~ and 14-16 with the following claims. Applicants have attached a separate sheet (Appendix A) showing the amendments. -OK

4. (Amended) A protein comprising an amino acid sequence selected from the group consisting of SEQ ID NO: 4 (partial structural protein of Ljungan 145SL)

*P1* and homologous sequences having at least 75% homology to the SEQ ID NO: 4, and antigenic fragments of the sequences.

*P2* 7. (Twice amended) A diagnostic kit comprising a protein according to claim 4 or claim 17 or an antibody-binding part thereof.

*P3* 9. (Amended) The vaccine according to claim 15 or 18, which additionally comprises an adjuvant.

*P4* 11. (Twice amended) A pharmaceutical composition for treating or preventing infection by a virus in a mammal, said virus comprising in the non-coding region of its viral genome a nucleotide sequence corresponding to a cDNA sequence selected from the group consisting of SEQ ID NO: 1 and sequences at least 75% homologous to SEQ ID NO: 1, said pharmaceutical composition comprising a protein according to claim 4 or claim 17 or an antibody-binding part thereof.

*P5* 15. (Amended) A vaccine having as an immunizing or neutralizing component a protein according to claim 4 or claim 17 or an antibody-binding part thereof.

*P6* 16. (Amended) A method for preventing or treating infection in a mammal, including a human, by a virus comprising in the non-coding region of its viral genome a nucleotide sequence corresponding to a cDNA sequence selected from the group consisting of SEQ ID NO: 1 and sequences at least 75% homologous to SEQ ID NO: 1, said method comprising administering to said mammal a prophylactically or therapeutically effective amount of a composition selected from the group consisting of:

- P5*
- (a) a protein according to claim 4 or claim 17 or an antibody-binding part thereof;
  - (b) a pharmaceutical composition according to claim 11; and
  - (c) a vaccine according to any one of claims 9, 15 or 18.

17. A protein according to claim 4, comprising an antigen.

*P6*

18. The vaccine according to claim 15, said vaccine additionally comprising a subunit of a virus, said virus comprising in the non-coding region of its viral genome a nucleotide sequence corresponding to a cDNA sequence selected from the group consisting of SEQ ID NO: 1 and sequences at least 75% homologous to SEQ ID NO: 1.

19. The method according to claim 16, wherein the pharmaceutical composition additionally comprises a subunit of the virus.

#### REMARKS

Applicant has amended the specification to insert SEQ ID NOS. on pages 11 (Table 2) and 12 and has replaced Sequence Listing pages 1-3, filed August 21, 2000 with new Sequence Listing pages 1-13.

Applicant has amended claims 4, 7, 9, 11 and 15-16, canceled claims 6, 10, 12 and 14, without prejudice, and added claims 17-19. Applicant expressly reserves the right to prosecute the subject matter of the canceled claims in one or more further applications that claim priority under 35 U.S.C. § 120 from this application. Upon entry of the amendments,
